

ROLLER BRUSH

Type CB 81

- Used for brushing of panel work piece before adhesive application.
- Rotary brushes Ø160 mm - 1.1 kW
- Rubber covered powered inlet and outlet rollers Ø80 – 0.75 kW, ensuring steady feed of work pieces.
- Adjustment of thickness of work piece is done quickly and accurately using hand wheel with numeric indicator.
- Suction boxes are prepared for hook-up of exhaust ventilation.

Type/ Roller length	Max. brush width	Pass-through speed	Workpiece thickness	Equipment dimensions height x length x width - weight
CB 81 – 750 mm	750 mm	Approx. 25 m/min.	2-100 mm	1250 x 1550 x 500 mm - 400 kg
CB 81 – 1000 mm	1000 mm	-	-	1250 x 1750 x 500 mm - 475 kg
CB 81 – 1350 mm	1350 mm	-	-	1250 x 2100 x 500 mm - 625 kg
CB 81 – 1600 mm	1600 mm	-	-	1250 x 2350 x 500 mm - 775 kg
