

# ADHESIVE MIXER

## Type LMX-2 Light edition

- The adhesive mixer is used for mixing of 2-component water-based adhesive.
- Peristaltic pump with fixed speed and hardening agent pump with variable speed ensure correct adjustment of mixing proportion.
- The adhesive and the hardening agent are not in contact until they are mixed in the discharge funnel. The funnel is in stainless steel and very easy to clean.
- The LMX-2 Light mixer is extremely simple to operate.
- The LMX-2 Light mixer is supplied with manual and timer operation.
- Hoses Ø38 mm and cam couplings for connection to container are included.

TYPE	POWER	RPM	LITER/MIN.	CONNECT
